

XANGA

We are happy to cooperate with police investigations and do so routinely. We can provide detailed information on a username in response to a subpoena, which can be **faxed to (917) 591-9200**. We capture the IP upon registration, the date of registration, email address the user provided, name the user provided and the IP of any password or email changes made. We preserve information even after a site has been shut down, however, if the user had completely deleted the material on the site prior to the shut down then we do not store it. Most likely, we would have some information because we have a 'trash' feature that many users do not know about.

Please mark the subpoena "ATTN: LEGAL AFFAIRS". Also, please include an email address to which our response can be transmitted.

I can also be reached directly here at chris-help@xanga.com.

Thanks,

Chris, Xanga.com
