Then it occurred to me he must be in some kind of trouble.

Then it occurred to me he must be in some kind of trouble.

That trouble I later learned was due to money spent that was not his from a government entity which I understand to have been the CIA who used Advance Point Global's bank account to funnel money through yearly to pay off blackwater operatives. What this meant was an agency would deposit a large sum of money into Andy's business account. This contractor working oconus would then receive a pay check quarterly from Andy so that the pay stub did not reflect the actual company contracting the work. The pay off to Andy was a portion of the money. The trouble took place when Andy spent the contractors money and couldn't replace it. Andy asks Harry Scott for a loan and the contractor is paid. This occurred again and Andy asks my Mom and stepfather George if he can borrow \$20,000. or "he'll go to jail" he said. My mom felt the same as my Dad about saving the unity of the family and so gave him the funds. During this stressful time Andy mentioned "being shot" or "going to jail" to me verbally.

1. The first step in the process of identifying a problem is to determine the nature of the problem. This involves a thorough understanding of the situation and the factors that are contributing to the problem. Once the problem has been identified, the next step is to develop a plan of action. This plan should outline the steps that will be taken to address the problem and the resources that will be required. The final step in the process is to implement the plan and monitor the results. This involves a continuous process of evaluation and adjustment to ensure that the problem is being effectively addressed.
